

## WHERE TO SOURCE QUALITY DECK MATERIALS

---

^ These companies are members of the DeckMark Quality Assurance Scheme and as such are audited by the Timber Decking and Cladding Association every twelve months to ensure they meet TDCA recommended standards.

(^) DeckMark accreditation pending

The \* symbol indicates installer members who operate a nationwide installation service. Most suppliers operate nationwide.

## DeckMark Quality Assurance Scheme

**DeckMark Product** applies to manufactured products.

**DeckMark Plus** is a complementary part of the DeckMark Product Manufacturing Certification Scheme. It identifies an individual manufactured component, or an assembly made from such components that have undergone additional specific technical or safety evaluations by a recognised quantitative procedure. These tests and evaluations are over and above the requirements of the Scheme and are provided by the manufacturer to support professional specification of the product with clear evidence that the component assembly will perform its design function e.g. Slip resistant decking or load tested parapets.

**DeckMark Installer** applies to decking installation companies.
