

## Siparila Exterior Cladding

### Project Brief

To recommend a Cladding product for upmarket homes in Sandbanks.

### Client

Fresh Developments.

### Product Solution

Siparila exterior Cladding.

### The Project

Fresh Developments mandate is to build high quality homes without using a large main contractor. They specify and install high quality products, materials and finishes.

Fresh Developments chose Siparila exterior Cladding from Timbmet not only for the superior quality of the Timber and its production, but also for its ease of installation, choice of colours and sustainability credentials for its upmarket homes in Sandbanks.

For additional customer reassurance that Siparila exterior Cladding can withstand the UK's unpredictable and sometimes harsh weather conditions, there is a 10- or 15-year manufacturers' warranty on all of this sawn faced, surface-coated spruce Cladding.

# Timbmet Cladding and Shingles

## The Timbmet Solution

"We are delighted with the success of our first prestigious Siparila project in the UK," says Justin Hayward of Timbmet's Commercial Team. "It demonstrates the growing appeal of a fully finished and painted Cladding product with a sawn face which retains the natural wood look.

The fact that Siparila is widely used in Finland gave us extra confidence in the product and we were also pleased with the quick lead time."
